"And today the Truth is, that the time has come for people to get their resurrection, that the time has come where people have to ascend to their higher being. As in Koran described very clearly, it's Kiama, it's the time of resurrection. Said very clearly, that your hands will speak and they will give witness about you. This is the time of Last Judgment. God is not going to weigh people to judge them. It is you only, in your ascent, are going to judge yourself."
